Contents of Volume 11 1990

Number 1 1989
Special Issue: Magnetic Materials

Instructions to Authors 4

Newsline 5

Calendar 9

Editorial 13

G.E. Fish
Metallurgical Influences on the Magnetic Properties of Rapidly Quenched Fe Base Alloys 15

R.V. Major and V. Samadian
Physical Metallurgy and Properties of a New High Saturation Co–Fe Alloy 27

A.A. Couto and P.I. Ferreira
Phase Transformations and Properties of Fe–Co Alloys 31

M. Shiozaki and Y. Kurosaki
The Effects of Grain Size on the Magnetic Properties of Nonoriented Electrical Steel Sheets 37

F.J.G. Landgraf, F.B. Neto, D. Rodrigues, G. Concílio, and R.L. Plaut
Effect of Annealing on Magnetic Properties of Fe–47.5% Ni Alloy 45

V. Panchanathan
Processing of Neodymium–Iron–Boron Alloys by Rapid Solidification Technology 51

Y.W. Lee, R. Origel, and D. Bhattacharya
Effect of Cold Reduction on the Magnetic Properties of a Nonoriented, Low Silicon Electrical Steel 61

T.H. Shen
The Study of Second Phase Particles in Grain Oriented 3% Si–Fe 71

F.A.O. Cabral and S. Gama
Phase Coexistence in the Fe–Nd System 83

R.K. Mishra
Crystallographic and Magnetic Alignment in Die-upset Nd–Fe–B Magnets 87

A.S. Kim
Corrosion and Corrosion Protection of RE–Fe–B Magnets 95

M. Wun-Fogle, H.T. Savage, and M.L. Spano
Enhancement of Magnetostrictive Effects for Sensor Applications 103

M. Abe, Y. Takada, T. Murakami, Y. Tanaka, and Y. Mihara
Magnetic Properties of Commercially Produced Fe–6.5wt% Si Sheet 109

K.C. Lin and E.E. Zook
A Desirable Material for Transformer Cores 117

Indexed in *Current Contents*

Number 2 1989

Instructions to Authors 126

Newsline 127

Calendar 130

S.G. Pope and J.K. Cochran
Mechanical Properties of Silicon Ion Implanted and Annealed Sapphire and Polycrystalline Alumina 133

J.K. Cochran, S.G. Pope, K.O. Legg, and H.F. Solnick-Legg
Control of Zirconia Surface Phases in Annealed Alumina with Y^+/Zr^+ Implantation Ratios 141

M.S. Beaton
Fiber Metal Acoustic Material for Gas Turbine Exhaust Environments 149

Contents of Volume 11 (continued)

E.I. Meletis
Wear–Corrosion Behavior of Ion Plated Thin Films 159

R.L. Klueh and W.R. Corwin
Impact Behavior of Cr–W Steels 169

N. Mukhopadhyay and R. Somasundaram
Influence of Overtempering on the Micromechanical Aspects of a Mn–Cr Steel Used in Turbogenerator 177

Indexed in *Current Contents*

Number 3 1989

Instructions to Authors 188

Newsline 189

Calendar 193

R. Wall and D. Jacobson
Thermionic Work Function of Chemically Vapor Deposited Rhenium on Tungsten 197

Y. Hasebe and K. Morita
Thermal and Ion Induced Interfacial Reactions between Metal and Graphite at Elevated Temperatures 201

K. Iwasaki, Y. Nozawa, S. Tanigawa, M. Tokunaga, and H. Harada
Nd–Fe–B Anisotropic Bonded Magnets 209

J.R. DiStefano
Review of Alkali Metal and Refractory Alloy Compatibility for Rankine Cycle Applications 215

P. McConnell, W. Sheckherd, and D. Norris
Properties of Thermally Embrittled Cast Duplex Stainless Steel 227

E.V. Zaretsky with Discussions by Y.P. Chiu and T.E. Tallian
Ceramic Bearings for Use in Gas Turbine Engines 237

Indexed in *Current Contents*

Number 4 1989

Newsline 259

Calendar 264

Instructions to Authors 266

J.A. Pask
Structural Ceramics 267

C.C. Berndt
Instrumented Tensile Adhesion Tests on Plasma Sprayed Thermal Barrier Coatings 275

M. Krishnamurthy, D. Jacobson, R. Ponnappan, and J. Johnson
High Temperature Corrosion Analysis of Inconel 617® Thermal Energy Storage Capsules 283

D.A. Csejka, D.E. Audette, and J.E. Schingh
The Interaction of Elemental Sodium with Molten $NaNO_3$–KNO_3 at 873 K 291

W.A. Ferrando
Review of Corrosion and Corrosion Control of Magnesium Alloys and Composites 299

S.T. Mahmood and K.L. Murty
Localized Plastic Flow, Anisotropic Mechanical Properties and Crystallographic Texture in Zircaloy Sheet 315

Index to Volume 11 331

Indexed in *Current Contents, Metals Abstracts, Engineered Materials Abstracts,* and *World Aluminum Abstracts*
